COMPLAINT INVESTIGATION FORM

*If there is an issue with more than one veterinarian please file a
separate Complaint Investigation Form for each veterinarian*

PLEASE PRINT OR TYPE

FOR OFFICE USE ONLY

Date Received: Dec. 30, 2021 Case Number: 22-75

A. THIS COMPLAINT IS FILED AGAINST THE FOLLOWING: Dr. Hudman
Name of Veterinarian/CVT: Kennel Care Veterinary Hospital
Premise Name: Kennel Care Veterinary Hospital
Premise Address: 6277 W Chandler Blvd
City: Chandler State: AZ Zip Code: 85226
Telephone: 480-940-0066

B. INFORMATION REGARDING THE INDIVIDUAL FILING COMPLAINT:

Name: Kabrin Bran
Address: [REDACTED]
City: [REDACTED] State: [REDACTED] Zip Code: [REDACTED]
Home Telephone: [REDACTED] Cell Telephone: [REDACTED]

STATE LAW REQUIRES WE HAVE TO DISCLOSE YOUR NAME UNLESS WE CAN SHOW THAT DISCLOSURE WILL
RESULT IN SUBSTANTIAL HARM TO YOU, SOMEONE ELSE OR THE PUBLIC PER A.R.S. § 41-1010. IF YOU HAVE
REASON TO BELIEVE THAT SUBSTANTIAL HARM WILL RESULT IN DISCLOSURE OF YOUR NAME PLEASE PROVIDE
COPIES OF RESTRAINING ORDERS OR OTHER DOCUMENTATION.

C. PATIENT INFORMATION (1):

Name: Zadey Bray
Breed/Species: French Bulldog
Age: 3 Sex: F Color: Black Merle

PATIENT INFORMATION (2):

Name: Zoe Bray
Breed/Species: Chihuahua
Age: 2 Sex: F Color: Chocolate Tri Merle

D. VETERINARIANS WHO HAVE PROVIDED CARE TO THIS PET FOR THIS ISSUE:

Please provide the name, address and phone number for each veterinarian.

Dr. Hudman, 6277 W Chandler Blvd., 480-940-0566

E. WITNESS INFORMATION:

Please provide the name, address and phone number of each witness that has direct knowledge regarding this case.

Ryan Bray

Alex Robinson Supervisor of Animal Control in Pinal County

Attestation of Person Requesting Investigation

By signing this form, I declare that the information contained herein is true and accurate to the best of my knowledge. Further, I authorize the release of any and all medical records or information necessary to complete the investigation of this case.

Signature: Kyabryn Bray

Date: 12-16-21

F. ALLEGATIONS and/or CONCERNS:

Please provide all information that you feel is relevant to the complaint. This portion must be either typewritten or clearly printed in ink.

I Feel like Dr. Hudman lied to me as Zadey's owner.
I Feel like he knew something was wrong with Zadey, and once he received Zadey's necropsy report he decided to stick with Ana Wolf, and ~~not~~ take my name off of the files. I called them multiple times to get info regarding my dead dog and puppies and he would never take my call. The owner of the clinic finally emailed me stating they will no longer speak to me as Ana took my name off of the file with out a subpoena. Dr. Hudman spoke with me after Zadey died and stated he didn't X-ray Zadey, and he knew I was the actual owner of both Zadey and Zoe. The necropsy states an X-ray was performed prior to delivery. Ana told me numerous of times Dr. Hudman and her text daily. I fully believe he knows Ana is wrong, and decided not to speak to me with out a lawyer. If there was nothing to hide there would be no reason to not give me my dogs and puppies necropsy report from Midwestern Pathology Center. Ana has told me Dr. Hudman provides her with medication with out seeing him so I assume that is how she got the clavomax for my chihuahua puppies. Ana is not a vet, and should not be pretending in her home because he gives her medication to stock upon for just in case measures.

Name: Dr. Larry Hudman, DVM PC

Date: January 26th, 2022

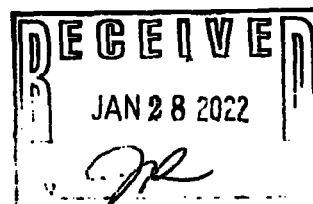

Case number: 22-75

Narrative Statement

I am writing this in response for my clients so they hear from me what is true and correct.

A woman named, Kabryn Bray, from Texas has filed a complaint against me with AZVMA. She is a co-breeder with a long-standing Kennel Care client named, Aria Wolf. Kennel Care was involved with the timing of breeding a French Bulldog, named Zadey. This female did get pregnant, but developed problems just prior to delivering her puppies. The next time I saw Zadey, she was brought to Kennel Care and was deceased on arrival. In addition to Zadey, Ms. Bray also entrusted her chihuahua, Zoey, to Ms. Wolf for whelping. Zoey whelped her puppies and both of them died shortly after birth. Both Zadey and one of Zoey's deceased puppies were sent to Midwestern University for a necropsy to identify why they died. They concluded that Zadey died of Pregnancy Toxemia and Zoey's puppies died from Canine Herpes transmitted from the mother, Zoey. The post mortems were performed at Midwestern Veterinary School in Glendale, Arizona. After consulting with Ms. Wolf on the correct breeding dates for Zadey, we were not involved with the care of Zadey post breeding.

INVESTIGATIVE DIVISION REPORT

TO: Arizona State Veterinary Medical Examining Board

FROM: Investigative Division

RE: Case: 22-75

Complainant(s): KaBryn Bray

Respondent(s): Larry Hudman, DVM (License: 3057)

SUMMARY:

Complaint Received at Board Office: 12/30/21

Board Discussion: 4/20/22

APPLICABLE STATUTES AND RULES:

Laws as Amended August 2018
(Lime Green); Rules as Revised
September 2013 (Yellow).

Complainant expressed concerns that Respondent would not discuss the necropsy findings with her regarding the cause of death of her two dogs, "Zadey," a 3-year-old female French Bulldog and a puppy from "Zoe," a 2-year-old female Chihuahua.

PROPOSED 'FINDINGS of FACT':

1. Respondent explained that Complainant is the co-owner of two dogs, Zadey and Zoe, whose care was entrusted to his longtime client, Aria Wolf.

ZADEY:

2. Respondent assisted in the timing of the breeding of the dog. Progesterone testing was conducted to determine when the dog was ovulating and should be bred.

3. On July 22, 2021, the dog had an appointment to be radiographed to determine the number of pups. However, the dog presented deceased; necropsy was approved and the dog was sent to Midwestern University.

4. Complainant had called Respondent's premises and requested to know the cause of death of the dog and also approved the necropsy. Complainant also requested a paw print.

5. On August 10, 2021, the necropsy report revealed the dog's cause of death was pregnancy toxemia. A copy of the report was sent to Ms. Wolf.

ZOE

6. Respondent assisted in the timing of the breeding of the dog. Progesterone testing was conducted to determine when the dog was ovulating and should be bred.

7. On July 22, 2021, the dog had an appointment to be radiographed to determine the number of pups.

8. On August 9, 2021, Ms. Wolf called Respondent to report that out of the two pups, one died and she was considering a necropsy. The other pup was seizing and having respiratory issues – Ms. Wolf was contemplating euthanasia. Respondent suspected the pups had herpes virus.

9. On August 11, 2021, the pup was sent to Midwestern University for necropsy.

10. On August 18, 2021, Complainant called Respondent to get the results of the necropsy report. Ms. Wolf was contacted to get approval to release the results to Complainant. Ms. Wolf requested that she be given the results before Complainant is provided with the information.

11. The histological findings, along with the age of the pup, were consistent with canine herpes virus infection, or less likely, adenovirus type 1.

12. Complainant expressed concerns that Respondent would not give her the results of the

necropsy reports of the two dogs. She stated that Respondent knew she was the actual pet owner and took her name off of the medical records.

13. Complainant also expressed concern that Respondent provided Ms. Wolf with medication without seeing the pet. Ms. Wolf was administering the pups Clavamox which she suspected was provided by Respondent.

The information contained in this report was obtained from the case file, which includes the complaint, the respondent's response, any consulting veterinarian or witness input, and any other sources used to gather information for the investigation.
